

Dear Customer

Thank you for spending time to visit our customer sales portal. We are constantly striving to encourage more customers to register and those already registered to use it on a regular basis. Consequently we have just completed a major upgrade of the portal and a summary is provided below:-

- **Contact Us (Yokogawa Account Manager)**

All registered users are assigned a Yokogawa account manager. Their mobile number and email address are shown at the top of the Contact Us page and you can send an email to them through the portal.

- **Featured Solutions (Digital Field Solutions and Wireless)**

Digital Field Solutions is a Yokogawa concept where enhancement process measurement with a clear presentation of this information can help improve the knowledge of your process. Yokogawa was the first company to launch ISA100.11a wireless sensor network. We have provided some useful links on this subject and you can book a practical demonstration and technical presentation through your account manager.

- **Store (Wizard or Simple Selection, Order Request and My Store)**

You can select glass or plastic Rotameters from a wizard or simple selection and then send an order request to us. You can also add shipping and invoicing addresses to the order request as well as the ability to review previous order requests.

- **Knowledge Matrix**

We have added details of the training courses available from our UK training centre.

- **About Us**

Link to vacancies within Yokogawa Europe.

- **Industrial Automation & Literature**

Simplified navigation.

- **Corporate**

Link to technical reports.

We would value any feedback from you to help improve the Yokogawa UK customer sales portal in the future. Please send your comments or suggestions by logging into www.yokogawa.co.uk and sending them to your account manager.
